# TALLINN

## 5 and 6 Players Expansion

for the card game for 2-4 players, ages 10 and up, duration 15-20 minutes

### Material

24 cards (2 sets of 11 Influence cards incl. Emperor's Envoy, 1 tracking card),  
2 silver coins, 2 gold coins

### Gameplay

In general all rules of the basic game for four players apply with following amendments:

When scoring your faction row display for a **contest** in phase 3 of a regular turn or during the final scoring, you only score victory points for beating your **two direct neighbours** to the right and the left.

The **tower scoring** is made as a face to face comparison with **all** opponents similar to the regular base game. But you only score **4 points** instead of 6 for each player you beat and you score **2 points** in case of a tie (instead of 3).

**Hint:** *When playing with the expansion »The Assembly«, use all 4 meeples per faction as in the four player game.*
